

Cocaine Blues

Dave Mason

Understand my baby dressed in blue
Well now, baby, what's the matter with you?
Cocaine
All around my brain

Understand my baby dressed in white
Well now, baby, won't you stay the night?
Cocaine
All around my brain
Yeah

Well, baby, won't you please come quick?
This old cocaine is making me sick
Cocaine
All around my brain
Yeah

Oh yeah, baby, ah
All around my brain

Now, baby, won't you please come quick?
This old cocaine is making me sick
Cocaine
All around my brain

Understand my baby dressed in red
Well now, baby, won't you come to bed?
Cocaine
All around my brain
It's all around my brain
All around my brain
