

It's Just You And Me

Dave Mason

Looked high and low to find you
Don't hide, nowhere to run to
These arms just wanna hold you
Two hearts together gonna ring true

This world can be a lonely place
Sometimes I feel an empty space
It goes away in your embrace

Just you and me
Just you and me, girl

You'll never know when love will find you
She can't belong, she swings and they groove
These arms still wanna hold you
Two hearts together gonna ring true

This world can be a lonely place
Sometimes I feel an empty space
It goes away in your embrace

Just you and me
Just you and me, girl
