

Just A Song

Dave Mason

Don't talk to me of fame and fortune
Don't tell me of the things you've read
Don't get involved in games of reason
There ain't no reason I could see for you to win

I've asked you questions now for far too long
I'm feelin' highly wasted but there ain't no sun
I'm tired of callin' you here when things go wrong
So now I'm finding all I need in just a song

Just take my hand and let me feel that I belong
Just take some time out from yourself to get along
Just one more day and I will turn from you and run
Although you're all I do, all I've ever done

I've asked you questions now for far too long
I'm feelin' highly wasted but there ain't no sun
I'm tired of callin' you here when things go wrong
So now I'm finding all I need in just a song

It may be the way I feel but you are all I have
It's not the same for everyone I know that well
It need a lot of give and take from everyone
But playin' game just won't have gettin' along

I've asked you questions now for far too long
I'm feelin' highly wasted but there ain't no sun
I'm tired of callin' you here when things go wrong
So now I'm finding all I need in just a song

In just a song
Just a song
