

## Replace The Face

Dave Mason

She looks kinda pretty, the music is slow  
I walk up to a table and I say hello  
I ask her to dance and as we start to move  
It's hard to keep on thinkin' that I wish she was you

You're just a memory that I can't erase  
(Replace the face)  
You know I'm trying to  
(Replace the face)  
But I keep seeing you  
You're just a memory that I can't erase  
Replace the face

Dancin', talkin', then I take her home  
She makes me some coffee and we're all alone  
She wants to be where only you have been  
I think I wanna love her, but I can't give in

Still thinking while I'm in her embrace  
(Replace the face)  
You know I'm trying to  
(Replace the face)  
But I keep seeing you  
You're just a memory that I can't erase  
Replace the face

Your face makes me face life's truth  
When I'm with somebody else because I can't have you  
Your face makes me smile  
But you're not around and now it only breaks me  
Down

You come to see me? work gets through  
Goodbye would be better than just waiting for you  
I know I didn't fall in love with you by myself  
Won't you help me now honey, let me love someone else

Don't want my heart to be no wasted space  
(Replace the face)  
You know I'm trying to  
You're just a memory that I can't erase  
Replace the face  
(Replace the face)  
Replace the face  
(Replace the face)  
Replace the face  
(Replace the face)  
Replace the face  
(Replace the face)
