

Then It's Alright

Dave Mason

Two heads are better than one
Just like stars shine brightest at night
Look at the fool on the run
Meet himself coming back in the light
And it don't matter which way
He surely will pay the price
'Cause your isolation
Will weaken the nation
So take someone's hand and together we'll stand
Then it's alright
Then it's alright

Just like a hole in the tire
No matter how long you blow
It don't get no higher
So with some people it goes
You just can't lend a hand if they won't stand on their own

And it don't matter which way
You surely will pay the price
'Cause your isolation
Will weaken the nation
So take someone's hand and together we'll stand
Then it's alright
Then it's alright

Don't you know it's gonna be alright
Don't you know it's gonna be alright
Don't you know it's gonna be alright

Then it's alright
Then it's alright
Then it's alright
