## You Can't Take It When You Go

## **Dave Mason**

Don't try to possess me
I'll slip from your grasp
the things that you seek
have already passed
in rushing to own everything that's in sight
nothing is left
no, not even your life

You can't take it when you go that's something that you oughta know Love isn't counted in gold only in heart and soul

Lies can't hurt
at least that's what you say
but there'll be confusion
as sure as night turns to day
truth is a feeling you just can't deceive
life's an illusion
when you don't believe

You can't take it when you go that's something that you oughta know Love isn't counted in gold only in heart and soul

Over and over day after day life's precious moments are wasting away if dreams are the schemes on which future's are made dream on sweet dreamer til you reach your grave

You can't take it when you go that's something that you oughta know Love isn't counted in gold only in heart and soul
