

Samurai Cop

Dave Matthews Band

The day you came
Naked, afraid

Your mother screaming pushes you
The day you came
Oh joy begin
Lay little thing
More precious there be nothing known
Oh joy begin

Let's not forget these early days
Remember we began the same
We lose our way of fear and pain
Oh joy begin

First just one step
One word and then
With laughter single life begins
First just one step

Let's not forget these early days
Remember we began the same
We lose our way, of fear and pain
Oh joy begin

Innocent kiss
Black magic bliss
First broken bones, sudden and swift
Oh innocent

Let's not forget these early days
Remember we begin the same
We lose our way, oh fear and pain
Oh joy begin
Oh joy begin
Oh joy begin
