

# Sister

Dave Matthews Band

**G** **Fmaj7**  
1. Passing time with you in mind  
**C**  
It's another quiet night  
**D**  
Feel the ground against my back  
**G**  
Counting stars against the black

2. Think about another day  
Wishing I was far away  
Wherever I dreamed I was  
You were there with me

**C** **D**  
R: Sister, I hear you laugh

**G**  
My heart fills full up  
**Emi F#mi**  
Keep me please

**C** **D**  
Sister, when you cry

**G**  
I feel your tears  
**Emi F#mi**  
Running down my face

**C** **D**  
Sister, sister, keep me

3. I hope you always know it's true  
I would never make it through  
You could make the sun go DARK  
Just by walking away

4. Playing like we used to play  
Like it would never go away  
I feel you beating in my chest  
I'd be dead without

R: Sister, I hear you laugh...

5. I hope you always know it's true  
I would never make it through  
You could make the heavens fall  
Just by walking away

R: Sister, I hear you laugh...
