

# The Hole is Where the Heart is

Davey Suicide

You said our love's a drug, ya cannot get enough  
Swallow these jagged pills, and crush the empty cup

Rise from the grave again  
Smear lipstick on your face  
time to fill that empty space

The hole is where the heart is baby  
We dig to survive  
The hole is where the heart is baby  
Reminds us, we are alive

A.L.I.V.E., we are alive

You said we're perfect in a world that can't be fixed  
Slam down your medicine, you never could resist  
Here comes the storm again  
Runaway train off the tracks, we're never coming back

The hole is where the heart is baby  
We dig to survive  
The hole is where the heart is baby  
Reminds us we are alive

There's nothing strong enough  
to protect the ache inside

The hole is where the heart is baby  
We dig to survive  
The hole is where the heart is baby  
Reminds us we are alive

A.L.I.V.E., we are alive  
we are alive  
we are alive  
we are alive  
we are alive

We all have to die a few times inside to realize what it is to  
live
