It's for the better  
There's too many things to love

For me to just look at you  
The wind is warm  
More so than the air from your mouth  
I can always fill up my empty heart  
With a cup of coffee  
It's alright, it's kind of bitter  
But it's sweeter than the irritable you  
I'm fine with this feeling  
I'm sorry  
Sorry for being happy without you  
It's for the better  
I don't wanna be lonely  
If I'm gonna be lonely even when I'm with you  
Why should I wait for you  
Burning up inside?  
What do I have to lose?  
I can't do this love that only waits  
So I left  
But still, remember this  
That I only had you  
The me who only waited for you, is no more  
After this good day  
I will share love with myself  
(On this street I walked on with you)  
Maybe a love that resembles me will find me  
I wanna walk with that love  
I'm fine with this feeling  
I'm sorry  
Sorry for being happy without you  
It's for the better  
I don't wanna be lonely  
If I'm gonna be lonely even when I'm with you  
Why should I wait for you  
Burning up inside?  
What do I have to lose?  
I can't do this love that only waits  
So I left  
But still, remember this  
That I only had you  
I always waited for you to come back  
Like a pet  
But I won't be there anymore  
I'm sorry  
I always waited for you to come back  
Like a pet  
But I won't be there anymore  
I'm sorry  
I always waited for you to come back  
Like a pet  
But I won't be there anymore  
I'm sorry
