A night filled with shining stars
With just you and me, let's take a walk
Along with the happy wind
My heart beats rapidly in unison
When we're face to face
These Words that come from my heart,
"I love you, I'll love you eternally"

I never knew your back was ever this warm
My replenshing strength
Whenever I'm having it rough,
Your embrace that I like so much

If only, I have you, If you're always by my side
The world looks this much beautiful
The person treasure me more than anyone else in this world,
I trust you to be that person
Among the brightest stars in the night sky,
Until their light dies out
I promise you
That my love for you will never change

I never knew your back
Was ever this warm

My replenishing strength whenever I have it rough,
Thank you for loving me

If only, I have you, If you're always by my side
The world looks this much beautiful
The person treasure me more than anyone else in this world,
I trust you to be that person
Among the brightest stars in the night sky,
Until their light dies out
I promise you
That my love for you will never change

My love will also be with you
Whenever you fall or whenever you are suffering
So that it will always be a love that shines brightly

A person I'm so thankful for,
An extraordinary person
The person that makes me this much happy
Just because it's you, I know my heart starts to jump
Even if the world deceives me,
You always take my side like the nice person you are
I promise to love you forever and ever
