You remember what day it is today, right?
 It's already been one year since we met
 If anything has changed since then
 It's our love that has grown even bigger

I'm going to dress you with this red sweater
That I made all winter, thinking about you
It suits you, whose heart is so warm
I hope you think of me
Lovers on the streets
Music playing all night
It's like everyone is blessing us
Like a nice gift
White snow is falling
Falling on everyone from the sky
Love is falling on our hearts that are touching each other
Should I softly lean on you and tell you first?
I love all of you that feels me
The day we met, one year ago
White snow fell as well
You looked at me, red from the cold
Teasing me and laughing
The candles quietly give off light
Can you see my heart as well?
When I'm with you like this
I'm happier than anyone else in the world
White snow is falling
Falling on everyone from the sky
Love is falling on our hearts that are touching each other
Should I softly lean on you and tell you first?
I love all of you that feels me
I'm attracted to girls who sing ballads these days
Let's go skiing together, let's go boarding
If you don't know how, I'll teach you
You can be the student that I fall in love with, I'll be your instructor
If you want something sweet, I'll sing "Joah" for you girl
You want a bad boy? I'll sing "Mommae" for you girl
If anything, we can make good music girl
Davichi, what's good? Come visit AOMG girl
I hear your wish, I even hear the sky
I'll be making the same wish tonight
Even after a long time
I pray that our love will stay the same
