

# Even After Forever

David Allan Coe

Yeah the snapshot must have been taken,  
Back in 1922  
But it's scary how the faces,  
Look so much like me and you  
Maybe there are some things in this life we just keep goin through  
Did it again

Sometimes when we're talkin,  
You've heard it all before  
Maybe we're just echoes in this life and nothin more  
Makes me wonder why we make the same mistakes,  
And slam the doors  
Did it again

Even after forever I still love you  
Even after tomorrow's yesterday  
Even if you never ever  
Hold me close again  
Somethings even the winds of time  
Just can't blow away  
Love never fades

I'm watchin some old Humphrey Bogart flick  
In the middle of the night  
When suddenly i smell the popcorn  
And I see the billboard lights  
Ah, but that could be cause all of this  
Came long before my life  
But maybe I'm wrong

There are things the lawyers and the preachers  
Still cannot explain  
Ah, they don't even know what to call it  
If it even has a name  
Well they say there's no such thing as magic  
Isn't that a shame  
Well, maybe they're wrong

Even after forever I still love you  
Even after tomorrow's yesterday  
Even if you never ever  
Hold me close again  
Some things even the winds of time  
Just can't blow away  
Love never fades  
Ahh, love never fades
