I'll Always Be A Fool For You

David Allan Coe

You change just like the weather I never know if you'll be hot or cold to me Can't you see what I've been going through We belong together even though I know at times it just can't be Honey can't you see I'll always be a fool for you I'll always be the first to say I'm sorry I'll always be the la st to say we're through I'll always be the one to take another chance In this romance I'll always be a fool for you

I'll always be the first to say
I'll always be a fool for you
