

Someone Special

David Allan Coe

Someone special she wants to be
A little more than a friend to me
She already has a lover
I can't ask a whole lot of her
It's plain to see
But she'll be there when I need her
I can call and she'll come to me
If a little love will do me
She'll see me through
Until I'm over you
Until I'm over you
She'll help me through the hard times
Until I'm over you

Someone special, someone to call
When I hear footsteps right down the hall
And your memory shoots right through me
While she gives her body to me
For just awhile
And she'll try her best to soothe me
Though she'll never belong to me
If a little love will do me
She'll see me through
Until I'm over you
Until I'm over you
She'll help me through the hard times
Until I'm over you

She's someone special
