Spotlight

David Allan Coe

I can't see nothing but spotlights spotlights see nothing but m

All of my music is lonely yeah all of my heartaches were free Don't waste your time or your flash bulbs too many heroes are dead

You like to live in the city yeah I like to live in my head Somebody shoot out that spotlight spotlights ain't nothing but jive

Roll me a smoke and give me some coke treat me like I am alive Tell all the ladies I'm single tell Lone Star beer that I'm dry Everyone's lying bout livin' everyone's livin' a lie

I spend my nighttimes in mourning I spend my morning's alone You spent your your money to see me tonight yeah I spent all mi ne gettin' stoned

Now that they're both kinda busted doesn't it seem kinda strang e

That I lay down knowing we're two of a kind you'll leave here k nowing my name

Somebody shoot out that spotlight spotlights ain't nothing but jive

Roll me a smoke and give me some coke treat me like I am alive Tell all the ladies I'm single tell Lone Star beer that I'm dry Everyone's lying bout livin' everyone's livin' a lie
