

Those Low Down Blues

David Allan Coe

Now I've got those low down blues
Like I've never had before
This time it's really over
You don't love me anymore

And I got home from working
There was no one waiting there
With my supper on the table
And my slippers by my chair

And I've got those low down blues
Like I've never had before
This time it's really over
She don't love me anymore
