

# A Little Goes a Long Way

David Archuleta

When your heart is tired  
And you're feeling small  
Like the words you're saying  
They don't matter at all  
I think you're underestimated  
Of the good in you  
You need some more investigating  
From a different view

Take a moment and just step back  
Before you give yourself a heart attack  
You've been too worried about what you lack  
Time to breathe and get you on track

There is a fire that's coming to light  
A little spark to get through the night  
Could be enough to see a new day  
'Cause a little goes, a little goes, a little goes a long way

Well, at the risk you're taking  
It could be a life in making  
And the hope you're hiding  
It could be a bolt of lightning

Take a moment and just step back  
Before you give yourself a heart attack  
You've been too worried about what you lack  
Time to breathe and get you on track  
(You on track, you on track)

There is a fire that's coming to light  
A little spark to get through the night  
Could be enough to see a new day  
'Cause a little goes, a little goes, a little goes a long way

Oh, it's been a long road  
To learn 'bout the little things  
Oh, it's been a long road  
To learn  
And the hope you're hiding (Oh, it's been a long road)  
It could be a bolt of lightning (To learn 'bout the simple things)  
At the risk you're taking (Oh, it's been a long road)  
It could be a life in making (To learn 'bout the simple things)

Oh, oh, oh no, yeah, yeah

There is a fire that's coming to light  
A little spark to get through the night  
Could be enough to see a new day  
'Cause a little goes, it goes a long way

There is a fire that's coming to light  
A little spark to get through the night  
Could be enough to see a new day  
'Cause a little goes, a little goes, a little goes a long way
