

# Afraid To Love

David Archuleta

All your words like a weapon  
But they can't hurt anymore  
Ain't no time like the present  
In the eye of the storm

I know I gotta let it go  
And give up what I can't control  
Close the door  
So I can open one more

So I'm gonna love you right  
No matter what they don't like  
'Cause baby what we do  
It ain't always black and white  
I don't care what they say  
I'm gonna break away  
Won't be afraid to love

So I'm gonna love you right  
No matter what they don't like  
'Cause baby what we do  
It ain't always black and white  
I don't care what they say  
I'm gonna break away  
Won't be afraid to love

Baby you feel like heaven  
This can never be wrong  
And I feel like this could be better  
Yeah, here in your arms

I know I gotta let it go  
And give up what I can't control  
Close the door  
So I can open one more

So I'm gonna love you right  
No matter what they don't like  
'Cause baby what we do  
It ain't always black and white  
I don't care what they say  
I'm gonna break away  
Won't be afraid to love

So I'm gonna love you right  
No matter what they don't like  
'Cause baby what we do  
It ain't always black and white  
I don't care what they say  
I'm gonna break away  
Won't be afraid to love

So I'm gonna love you right  
No matter what they don't like  
'Cause baby what we do  
It ain't always black and white  
I don't care what they say

I'm gonna break away  
Won't be afraid to love

So I'm gonna love you right  
No matter what they don't like  
'Cause baby what we do  
It ain't always black and white  
I don't care what they say  
I'm gonna break away  
Won't be afraid to love
