

# Brave

David Archuleta

I know at some point in the future  
I don't wanna be looking back  
The things that I didn't go for  
Some day'll bite me on the butt

I keep on wasting my time now  
Sometimes I'm feeling so lame  
I'm letting everything go south  
When I should be up on my game

When somebody steps into my life  
The world shakes under my feet  
I don't wait, I just take flight  
When things start getting too deep

I don't know why I keep doing it  
I worry bout things I can't change  
It's a problem I'll admit  
It always ends up the same

I can be brave  
For all those days that I'm losing my way  
I need a voice inside that's gonna say  
Be brave  
I can be brave  
For all those days that I'm losing my way  
I need a voice inside that's gonna say  
Be brave  
I can be

All of these conversations  
I sit down and have with myself  
Loaded with information  
And that isn't good for my health

Cause it's like a mountain in my head  
It's pretty much touching the sky  
So I figure why not just stay in bed  
Why even bother to try

No one, no one really knows the things I gotta do  
How many, how many walls and people that I gotta move

Life ain't waiting for no one  
But someone's waiting for me  
And holding back is so dumb  
Lord, give me clarity

To be brave  
For all those days that I'm losing my way  
I need a voice inside that's gonna say  
Be brave  
I can be brave  
For all those days that I'm losing my way  
I need a voice inside that's gonna say  
Be brave  
I can be brave

And I'm ready to fight  
When shadows come  
To hunt me down  
And I, I won't give up  
No I won't give up  
Let the war cry sound

Be brave  
I can be brave

For all those days that I'm losing my way  
I need a voice inside that's gonna say  
Be brave  
I can be brave  
For all those days that I'm losing my way  
I need a voice inside that's gonna say  
Be brave  
I can be brave
