

Hell Together

David Archuleta

Bow your head
Don't be bold
You'll survive by
Doing what you're told
Said love is earned
And we can't choose
But the more you grow
You know the truth

And all I want is to make you proud
If I would run would I let you down?
You said

If I have to live without you
I don't wanna live forever
In someone else's heaven
So let em close the gates

Oh if they don't like the way you're made
Then they're not any better
If Paradise is pressure
Oh
We'll go to Hell together

You and me
That's all we need
Blood is thicker
Than the pages
That they read
I'm afraid
Of letting go
Of the version of me
That I used to know

Crying tears in Sunday crowds
Took my hand, and we walked out
You said

If I have to live without you
I don't wanna live forever
In someone else's heaven
So let em close the gates

Oh if they don't like the way you're made
Then they're not any better
If Paradise is pressure
Oh
We'll go to Hell together

Hallelujah
What's it doing for ya?
When it's in the way?
Hallelujah
Wish we knew it sooner
Walking out with grace

If I have to live without you

I don't wanna live forever
In someone else's heaven
So let em close the gates

If they don't like the way you're made
Then they're not any better
If Paradise is pressure
Oh
We'll go to Hell together
