

# I'm Yours

David Archuleta

I'm on fire, I'm a fool  
I've been trying to fight it  
Gonna break all the rules  
And I'm not here to deny it, ooh  
Feel your touch everywhere  
You got me shining the brightest  
Flows like water and air, we can go anywhere  
I hear your call and I'm there

All day, all night, and forever  
I think of all the ways that we can be together  
Alright, let's apply the pressure  
I don't think I ever want it to stop

On the floor, give me some more  
If you want it, come and get it, I'm yours  
Yeah I'm sure, so what you waiting for?  
If you want it, come and get it, I'm yours

If you want it, come and get it, I'm yours  
If you want it, come and get it, I'm yours

Got this feeling inside  
Falling fast but I like it  
You got that look in your eyes that breaks my heart open wide  
You're the one I've been waiting to find

On the floor, give me some more  
If you want it, come and get it, I'm yours  
Yeah I'm sure, so what you waiting for?  
If you want it, come and get it, I'm yours

If you want it, come and get it, I'm yours  
If you want it, come and get it, I'm yours

All day, all night, and forever  
I think of all the ways that we can be together  
Alright, let's apply the pressure  
I don't think I ever want it to stop baby  
Don't want it to stop, ooh yeah

On the floor, give me some more  
If you want it, come and get it, I'm yours  
Yeah I'm sure, so what you waiting for?  
If you want it, come and get it, I'm yours

All day, all night  
If you want it, come and get it, I'm yours  
I don't think I ever want it to stop  
All day, all night  
If you want it, come and get it, I'm yours  
I don't think I ever want it to stop

Never never want it to stop  
Never never want you to stop
