

Let's Talk About Love

David Archuleta

Sometimes I wondered what I'd be when I grew up
And then I remembered it was anything I dreamed of
I could be a poet or a singer
Or I can be a scientist
But before I make that decision, let's talk about my list

Let's talk about love, let's talk about peace
And living in perfect harmony
Let's talk about hugs, and talk about ways that we can share

Let's talk about you, let's talk about me
Let's talk about how we can be one big family
Let's talk about love, let's talk about love

Sometimes I feel like I want to give my friends a call
To tell them what I'm dreaming and everything I want
I want us to be a little closer
And to always reach out a hand
To be kind to one another
And always understand

It's all about love, it's all about peace
And living in perfect harmony
It's all about hugs, it's all about ways that we can share
It's about you, it's about me, it's all about how we can be one big family
It's all about love
