I'll Never Make It Through This Fall

David Ball

Cold wind a blowing across the river
Storm clouds move across the sky
Darkest hour is closing in
She's gone and said goodbye

Snow is falling it's deep on the ground
I got a feeling it's all over now
Nothing left to keep me going
This time my back's against the wall
I've made it through a lot of winters
I'll never make it through this fall

She said I love you like no other
Oh how I wish those words were true
Someone came along and stole her heart
Nothing on this Earth I could do

Snow is falling it's deep on the ground
Better keep moving but my heart lays down
Nothing left to keep me going
This time my back's against the wall
I've made it through a lot of winters
I'll never make it through this fall

I turn my back the cold wind blows through me
Ah but it's her leaving that brings me to my kn-e-es
Nothing left to keep me going
This time my back's against the wall
I've made it through a lot of winters
I'll never make it through this fall

I've made it through a lot of winters
I'll never make it through this fall
