

# I Never Did Know

David Ball

Pour that glass just as full as you can pour it  
Cause I got an aching in my heart  
And talk that trash just as long as you can talk it  
My whole world is coming apart

Dance me round in circles till I get dizzy  
Make my head spin like a top  
I may act like a fool gone crazy  
But I never did know when to stop

I never did know when to quit once I got started  
I got a habit of taking things too far  
So pour that glass just as full as you can pour it  
Cause I loved her with all my heart

Slide these quarters down the slot in that old jukebox  
Feed it all it can hold  
Wear that record out spin it till it's red hot  
Then give her another go

Cause I never did know when to quit once I got started  
I got a habit of taking things too far  
So pour that glass just as full as you can pour it  
Cause I loved here with all my heart
