

## So In Love

David Banner

Treat your throwback chicks right  
Ya know what I'm sayin they are people too  
Every chick that I used to like  
Done turned dike  
And every chick that I used to dig hair real is really a wig  
And every chick that I used to love (ohh!)  
Done turned to drugs  
But yet still I keep it real and I'm so in

I'm so in love with you  
(and I ain't going no where me and you with our guns in the air baby)  
I'm in love with you  
(and I'm a stay down till these bitches put a nigga in the ground)  
(ohh!)

I remember those days I was broke and a bitch barely up  
House smelling like some piss you was there for me  
Rubbing my head saying its gone be alright  
The hardest nigga I was crying late at night it was fucking with me  
In a bucket we would mash out  
When I did that bullshit and got caught you got my ass out  
You was that girl that would set that nigga up  
I was the man that would wet that nigga up now fuck with me  
And you did when they came to the crib  
You grabbed the tech and started bussin' at a bitch aww shit, baby  
You was my lady when she laughed at my clothes  
In the front row when them hoes boo'd at my shows  
And its cool cause you helped me through school  
'95 selling weed in baton rough  
And you stayed strong with a pimp trick  
Whipped it out and sucked a niggaz dirty dick, aww shit  
Baby I'm sorry lets start brand new  
The world against us all along us two  
All the shit I done took you through  
I'm a grown man now

The second verse is for my momma you could truly serve a bowl  
You were strong when daddy was gone  
Fuck a nice home  
When I was dying as a baby, momma boo you stay true  
I heard you whisper to the lord, let my child make it through  
And I did I walked up in this bitch first born kid  
Tell 'em fuck it billy went and hit a lick (Ha ha ha)  
You were there when the times were hard  
You're a blessing from the heavens not a breed by god  
And if I die momma swallow the pain  
I leave this earth with your blood up in my veins  
Let it flow free, let it kill me  
But its on, and the way we ridding caddies  
Screaming out lil jones
