

# Dancing Out in Space

David Bowie

Cutting through the water  
Hands upon the ghost  
To the city of solid iron  
Through the kingdom of the boats  
Send your friend away now  
Let him sail back home tonight

Something like religion  
Dancing face to face  
Something like a drowning  
Dancing out in space

No-one here can see you  
Dancing face to face  
No-one here can beat you  
Dancing out in space

Silent as Georges Rodenbach  
Mist and silhouette  
Girl, you move like water  
You've got stars upon your head  
You've got my name and number  
You've got to take the floor

Something like religion  
Dancing face to face  
Something like a drowning  
Dancing out in space

No-one here can see you  
Dancing face to face  
No-one here can beat you  
Dancing out in space

Dancing face to face  
Dancing out in space

Dancing face to face  
Dancing out in space

Dancing face to face  
Dancing out in space
