

That's Where My Heart Is

David Bowie

I just cannot believe
That you want me
Beg at your door
I just cannot believe
That you want me
Forever more
Time and time I tried to make you mine
I didn't think it would be such a short time
Before you came my way

Up where the moon is shining so bright
That's where my heart is tonight
Up where the moon is so bright
That's where my heart is tonight

I thought my day would come
When I would be
The only one
I thought my day would come
Under the moon
And under the sun
Now I shout through all the streets today
Lucky me your love has come my way
Now tell me I was a fool

Up where the moon is shining so brightly
That's where my heart is tonight
Up where the moon is so bright
That's where my heart is tonight

I believe that dreams come through
I believe, because of you
He who made the stars in sky
Made the world for you and I

I just cannot believe
That you want me
Beg at your door
I just cannot believe
That you want me
Forever more
Time and time I tried to make you mine
I didn't think it would be such a short time
Before you came my way

Up where the moon is shining so bright
That's where my heart is tonight
Up where the moon is so bright
That's where my heart is tonight
