

# We All Go Through

David Bowie

Skeletal city highs  
Crazies with dumb replies  
Nobody's eyes anymore

Frown on your beggar's face  
Walking this lunarscape  
Nothing in my lackaday

We'll all be right  
We'll all be right  
We'll all be right in the now  
We all go through  
We all go through  
We all go through it sometimes

Somebody's space to rent  
Somebody's soul to dent  
Dog is in every word

Hiding the flames of power  
Hiding us home by home  
Nearly got out yesterday

We'll all be right  
We'll all be right  
We'll all be right in the now  
We all go through  
We all go through  
We all go through it sometimes

Trouble it travels on the wing  
Doorway to door  
Open your eyes  
Nothing remains  
A secret love between us

Nothing can hide for long  
We are the morning song  
Holding my breath anyway

We'll all be right  
We'll all be right  
We'll all be right in the now  
We all go through  
We all go through  
We all go through it sometimes

We'll all be right  
We'll all be right  
We'll all be right in the now  
We all go through  
We all go through  
We all go through it sometimes  
Through it sometimes  
(We all go through)  
Through it sometime  
(We all go through)

(We all go through)  
(We all go through)
