Lilies Of The Valley

David Byrne

Momma she had complications There's nothing very strange 'bout that Nuns said "We can't kill that baby. We'll have to let your mother die"

We are all just lilies of the valley
We neither reap nor sow
We need to get our hands a little dirty
To make our gardens grow

Way too many people on this island Getting way too crowded on this boat Need someone to bail some water If we're gonna keep this thing afloat

I like a little sugar in my coffee
I don't mean Sweet 'n Low
You don't know what you want until you
find it
I believe you'll tell me so

I need a little water in my garden
I need a little sunlight on my head
I need someone to cover me with kisses
When I'm all alone & scared

We are all just lilies of the valley
We neither reap nor sow
We need to get our hands a little dirty
To make our gardens grow

I like a little sugar in my coffee I don't mean Sweet 'n Low Ahh...like to cover me with kisses To make my garden grow
