

# My Apartment Is My Friend

David Byrne

I know every part of you  
We've been together for so long  
You've seen me at my very worst  
But we always get along

You have witnessed my confusion  
My triumphs and my shame  
The things that no one knows  
The moments that we shared

So forgive me if I hesitate  
If a tear comes now and then  
You stood by me when darkness fell  
My apartment is my friend  
My apartment is my friend

The days of laughter and joy  
When you held me in your arms  
Secure and safe within your halls  
Free from fear and free from harm

You, when no one understood me  
It's a secret, just we two  
Between the walls and windows  
We're connected, me and you

So forgive me if I hesitate  
If a tear comes now and then  
You stood by me when darkness fell  
My apartment is my friend  
My apartment is my friend

So forgive me if I hesitate  
If a tear comes now and then  
You stood by me when darkness fell  
My apartment is my friend  
My apartment is my friend
