

# This Is That

David Byrne

When the song comes on  
When I hear them say  
Everything stops  
Everything changes  
It's nothing special now  
It's nothing profound  
But something about the way it sounds  
When the melody ends  
And the rhythm kicks in  
It knows where I'm at  
And it knows where I've been  
Well

That's when I call you up  
That's when my river overflows  
That's when I use my cash card  
That's when I think of who you are

That's when there's a knock at the door  
And that's what we're doing it for  
Well, that's when I got your message

And that's when I sing this song  
That's when he says it's over  
That's when my life is in your hands now

That's when I call you up  
That's when my river overflows  
That's when I use my cash card  
That's when I think of who you are

This is when  
This is now  
This is that  
This is how  
This is what  
This is then  
This is where

This is when  
This is now  
This is that  
This is how  
This is what  
This is then  
This is where

This is when
