

## All in Your Mind

David Byron

Think of the things that you do just for me  
Love me in so many ways  
Yes, in the past I've been bad I'd agree  
But now I'm a fool with no stays

And it's all in your mind  
Is love's hard to find  
So don't believe what everybody says about you  
I'll never need you to tell me  
'Cause I'm nearly gonna do without you  
It's all in your mind  
So whine on and whine  
Just let yourself it too enough than me  
And lesser than that ones who really show you  
That's it's all in your mind

Think of the things that I've done just for you  
Before you decide where I stand  
Worried awake stay and think what to do  
Then all my world's in your hands

And it's all in your mind  
Is love's hard to find  
So don't believe what everybody says about you  
I'll never need you to tell me  
'Cause I'm nearly gonna do without you  
It's all in your mind  
So whine on and whine  
Just let yourself it too enough than me  
And lesser than that ones who really show you  
That's it's all in your mind
