

# I Remember

David Byron

I can talk about it now because I'm free  
A-a-a-a-ah

Didn't I say just a moment ago  
All of my life has been just like a show  
Always impatient and ready to go I remember

I've been 'round the world with a whole bunch of clowns  
Seen all of the cities and most of the towns  
And we had our ups and plenty of downs I remember

I can talk about it now because I'm free  
But I'll always be the same old me

Playing my music is all I can do  
To say all the things that is possible to  
But sometimes I thought that I wouldn't pull through I remember

So I'll carry on for as long as I can  
With hardly a reason and never a plan  
'Cause I'll be contented if I stay the man I remember well
