

Tenderly

David Cassidy

I never knew the things I know now
I'm wondering how, I'm still wondering now
With all that love has to offer
When you're here with me

I feel this way when I hear your name
I get this feeling again and again
Tell me you feel the same
When you're here with me

Ooh ee I'm in love tenderly
One day you'll notice
Someday you'll see
Ooh ee I'm in love tenderly
Hoping and praying
Thinking and saying
Touching and holding you here
And loving you, so tenderly

To be with you, to be always by your side
I will always find the answer in your eyes
In everything you do, so in love with you
I will always find the answer in your eyes

I always hear your voice in the air
It's with me now, you're with me everywhere
Tell me you feel the same
When you're here with me

Ooh ee I'm in love tenderly
One day you'll notice
Someday you'll see
Ooh ee I'm in love tenderly
Hoping and praying
Thinking and saying
Touching and holding you here
And loving you, so tenderly

To be with you, to be always by your side
I will always find the answer in your eyes
In everything you do, so in love with you

To be with you, to be always by your side
I will always find the answer in your eyes
In everything you do, so in love with you

O be with you, to be always by your side
I will always find the answer in your eyes
In everything you do, so in love with you
