

## Thin Ice

David Cassidy

Darlin' what have I got to do  
What have I got to say  
Can't you see it's tearing me apart  
This screaming in my heart - it won't go away

Darlin' doesn't this all seem crazy  
Isn't it just insane  
To come so far and throw it all away  
Please don't let it end this way - can you hear me tonight?

You left me standing on thin ice  
I stood here shaking the whole night  
We just keeping having the same fight  
Why does it mean so much to be right

Darlin' what have I got to lose  
When all I've got is you  
It'S been this way a thousand times before  
But I can't take it anymore - can I see you tonight?

You left me standing on thin ice  
I stood here shaking the whole night  
We just keeping having the same fight  
Why does it mean so much to be right

Don't leave me standing on thin ice  
I won't make it another night  
I can't keep losing the same fight  
Just turn around and you can be right

You left me standing on thin ice  
I stood here shaking the whole night  
We just keeping having the same fight  
Why does it mean so much to be right

Don't leave me standing on thin ice  
I won't make it another night  
I can't keep losing the same fight  
Just turn around and you can be right

You left me standing on thin ice  
I stood here shaking the whole night  
We just keeping having the same fight  
Why does it mean so much to be right

Don't leave me standing on thin ice  
I won't make it another night  
I can't keep losing the same fight  
Just turn around and you can be right

Don't leave me standing
