

# Touched By Lightning

David Cassidy

Never felt this before  
This is love I want more

I was so fed up with my head hung down  
I had to crawl out of this dark old town  
Run into you as I'm draggin' my feet  
The next thing I know is I'm out on the street

I was touched by lightning  
It was so exciting

Never felt this before  
This is love I want more

This love happens to someone once in a life  
And you can be mine  
This time I'm not the only one who's in love  
Cause this is my time

I was touched by lightning  
You know it's so exciting  
To be touched by lightning

I'm so wound up like a spring wound clock  
I'm just so plugged in I'm in electric shock  
I'm burning hot there's smoke on my heels  
I don't want to stop 'cause I love how it feels

To be touched by lightning  
It was so exciting

This love happens to someone once in a life  
And you can be mine  
This time I'm not the only one who's in love  
And this is my time... you know...

Make it so exciting  
When you get touched by lightning  
It's so exciting  
You know when you get touched by lightning  
You make it so frightening  
When you get touched by lightning
