

Remember

David Choi

I don't like it anymore how that all those days
When we don't even say a word to each other
I don't like it anymore when we act that way
Like we were never ever even lovers

I know that we're both, working our jobs
Taking care of everything we have
But you know it doesn't mean
Oh, you know it doesn't mean
It should be like this forever

Remember the height
From which we fall
And remember the days
Our love meant something

Remember the passion that we had
When did it ever get this bad
Oh, I don't want to be
The way we are

I want to give the love we have for each other
Oh girl, what happened to our love
That we've been missing
Oh girl

You remember all the letters that you sent to me

I still keep them locked up, inside my drawer
Oh how I wish we could go back to how it used to be
I know there's more to you that I, could discover

Could we light, the fire again
And make it shine brighter than ever
Girl are you hearing what I mean
Are you hearing what I mean
It should be like that forever
Oh yea

Oh, right now
I don't care about anything other than us
Cause it's about us
Oh, it's about us, it's about us baby
About us

It's not that our love is gone
We just stopped, being strong
So if we hold on, we can make it through
And love like we used to do

That we've been missing...
That we've been missing...
