Rollercoaster

David Choi

Pull the seat belt down to my lap
Rollercoaster speeding so fast
Take me through the loop de loop

Sitting solo wind on my face
Don't know if the coaster is safe
I smile, or I try

Bring on the fire, take me through water
I'm in this alone; it's just getting hotter

It's not the first, sure hell ain't the last
I go back around again
Red, yellow, green, lights flash
Everyone's watching, from the ground below
They don't know what's going on, but I know

They talk about the things that they see
So convinced in what they believe
Just my rollercoaster and me

All the letters in sealed envelopes
Someday I'll watch all the secrets float
In the air, down to the floor

Some are just well oiled machines
But there ain't no net under these beams
Just zipping through the loop de loop de loop

Sitting solo wind on my face
Don't know if the coaster is safe
I smile, or I try
