

She's A Star

David Choi

She's a star from the heavens
That fell down to the earth
She'll make you swoon
Fly up like a balloon

I just don't know what it is
Something bout her just makes me wish
That I was the moon

She's a star ah ah ah ah ah
She's a star ah ah ah ah ah

I hope she don't go shooting away
Like them others do
I wanna be the moon

It's a race with the ticking tock
A life that I can't define
I was lost
But I think that I found the one

Oh I just don't know what it is
My orbit's on track and I can't miss
This has gotta be it

She's a star ah ah ah ah ah
She's a star ah ah ah ah ah

I hope she don't go shooting away
Like them others do
I wanna be your moon
