

Together

David Choi

I am broken
You're scarred
You gave him everything
I gave my heart
What the hell are we doing
They moved along
You tell me I'm better
I tell you what's wrong

Girl we'll go through this together
And I'll hold like I held her
You know there's nothing else
Right now that's better
Girl we'll go through this together

I know you been crying
I'm still holding it in
I've been fighting a battle
That I hope I can win
Yeah I know we been dying
We've been treated like shit
But for a moment let's forget

Girl we'll go through this together
And I'll hold like I held her
You know there's nothing else
Right now that's better
Girl we'll go through this together

They won't know how true this feels
So long, farewell
Goodbye tonight

Girl we'll go through this together
And I'll hold like I held her
You know there's nothing else
Right now that's better
Girl we'll go through this together
We'll go through this together
We'll go through this together
