

# Valentines

David Choi

I see a couple strollin down the street  
They're so in love, there's not a worry  
and to the clock they said goodbye, they ain't in a hurry

And sometimes I feel kind of lonely  
ask myself where is my one and only  
until she comes to me, I'll wait  
until then I shouldn't be feeling this way

Won't let no Valentines get me down  
or when Christmas time comes around  
just cuz I'm alone right now  
don't' mean I should hold a frown

oh in the meantime love is here you'll find  
the simple things that slip your mind  
the joy of hope for better days  
you know that love can find it's ways

When you finally find the one who you can call your own  
you can tell yourself the wait was worth it all  
cuz you got something to last forever

I can smile cuz there's so much in store  
the futures holds for me more than I will ever know  
shouldn't make no room for feeling sad

Won't let no Valentines get me down  
or when Christmas time comes around  
just cuz I'm alone right now  
don't' mean I should hold a frown

oh in the meantime love is here you'll find  
the simple things that slip your mind  
the joy of hope for better days  
you know that love can find it's ways
