

# You Found Me

David Choi

Growing up they never said "I love you"  
Growing up they never said "I care"  
Had to figure out what they didn't say  
And I never knew how

They spoke to me with accessories and some dollar bills  
We've already gone over the hill  
How I thought I didn't need something to feel  
But to broken in

Then you found me  
You didn't buy the front that I was showing everybody  
You found me  
You saw the scared boy inside of me that knew nothing  
Found me  
My flaws you found perfect you loved me

(Yeah)

Sorry that I couldn't give what I should have  
You were so patient I'm a lucky man  
Took a chance to show me something beautiful  
And I'm learning more  
I'm loving more

You found me  
You didn't buy the front that I was showing everybody  
You found me  
You saw the scared boy inside of me that knew nothing  
Found me  
My flaws you found perfect you loved me  
You loved me  
You loved me

Finally breathing  
I'm finally breathing  
You found  
This is breathing  
I'm finally breathing

You found me  
Didn't buy the front that I was showing everybody  
You found me  
You saw the scared boy inside of me that knew nothing  
Found me  
My flaws you found perfect  
My flaws you found perfect  
You loved me

(Yeah, hey)

Oh you loved me (you loved me) (you loved me)  
Oh you loved me (you loved me) (you loved me)  
You loved me
