

Hope you had a good time while you were here  
Such a beautiful view for a beautiful girl  
This time of year  
Now here we are looking back  
Through wasted photographs  
Blank pages filling up our past  
No, it's not funny, but all that I can do is laugh

You can keep my heart  
The one you took when you ran away  
You can keep my hear  
It's got no use here  
Call it a souvenir  
Call it a souvenir

Quite a trip that we never should have taken  
I just can't believe how you've broken me since you went away  
Now all you do is promise everything  
Tell me you'll stay  
So many signs of decimation missed there  
So many signs I guess I missed

You can keep my heart  
The one you took when you ran away  
You can keep my hear  
It's got no use here  
Call it a souvenir  
Call it a souvenir

So many pages that got filled up  
So many lessons to learn about love  
So many days, so many ways, so many suns, so many rains  
All you got was my broken heart  
Hope you had a good time while you were here

You can keep my heart  
The one you took when you ran away  
You can keep my hear  
It's got no use here  
Call it a souvenir  
Call it a souvenir  
You can keep my heart  
You can keep my heart  
Call it a souvenir
