Drive Out to the Desert

David Crosby

Drive out to the desert
Sail out on the sea
Far away from cities
Where the light hides the sky
Stars fear to fly
And your eyes are finally free

Find a space that's quiet
And lie down on your back
Ground and center
In your head
Till your troubles have fled
And they've ceased their attack

And if you start to feel very small That's a very good sign
It means that your perception
Your radio's reception
Is working fine

Look up and see
Look up there with me
This great magic ocean
Stars like sand
Thrown by someone's hand
In one timeless motion

And if you start to feel very small That's a very good sign
It means that your perception
Your radio's reception
Is working fine
Just fine
