

I Think I

David Crosby

I think I, I think I've found my way
I think I, I think I've found my way

And they don't tell you
When you were right
All the thing you need to stay alive
There's no instructions and no map
No secret way past the trap
It's so confusing, we keep losing our way

I think I (I think I)
I think I've found my way
(Found my way)
I think I (I think I)
I think I've found my way
(Found my way)

And I wake up and wonder half a day
I try to understand why it's this way
There's no instructions and no map
No secret way past the trap
It's so confusing, I keep losing my way

I think I (I think I)
I think I've found my way
(Found my way, uh-huh)
I think I (I think I)
I think I've found my way
(Found my way, uh-huh)
I think I (I think I)
I think I've found my way
(Might have found my way, uh-huh, yeah)
I think I (I think I)
I think I've found my way
(I might have found my way, uh-huh, yeah)

I hear people singin' in the rain
And I start walkin' towards that sound again
I keep using this path
It's really only simple math
It's so confusing, we keep losing our way

I think I (I think I)
I think I've found my way
(Found my way)
I think I (I think I)
I think I've found my way
(I think I've found it, I think I've found it)
I think I (I think I)
I think I've found my way
(I might have found it)
I think I (I think I've found)
I think I've found my way
(I might have found it, I might have found it)
I've found my way
