...neverending...

David Crowder Band

Neverending always, You will never end Because You're always neverending You were there before there was beginning Always You were, You are neverending

Here You are now with us Here we are, found in You

And this makes all the difference This changes everything Making our whole existence Worth something, so we sing

La la la la La la la la

Neverending always, You will never end Because You're always neverending You were there before there was beginning Always You were, You are neverending

Here You are now with us Here we are, found in You

And this makes all the difference This changes everything Making our whole existence Worth something, so we sing

Oh You make all the difference Yeah, You change everything You make our whole existence Worth something, so we sing

La la la la

La la la la la
