

# First Love

David Dallas

Yeah

(Thank you, 41beats)

Started out with a bang  
Don't know why I knew I could hang  
I met Todd out in N.P  
Empty beer bottles and nangs  
I came back to Aucks with a spark  
I perfected things in the dark  
Think you wanna step in my shoes?  
Fuck, you must be having a laugh  
Know I paid the price for this art  
"Who the fuck you think you are? Nas?"  
That's the type of shit that you hear  
When half the crowd is havin' a dart  
Durin' your set, but that's in the past  
Been a while but got scars  
Took plenty L's like Haas  
Now, all that's half full is the glass  
Go 'head, think about that  
Bit on edge, you blink and I'll snap  
Hurts my heart they're thinkin' 'bout traps  
When all I'm doin' is bringin' out slaps  
Worst thing I could do is react  
Been through hell but seemin' relaxed  
What your feelings mean to me? Jack  
Ain't no one as mean as me - fact  
Nowadays, see where we at  
From motels, sleepin' in flats  
Stuck somewhere out in Ashburton  
Trippin' balls from eatin' up hash  
Bad promoters feedin' us snacks  
Those per diems we weren't seein'  
So now they need to be taxed  
My fee need to be maxed

Hard to put in words  
How it feel 'cause nothin' burn  
Like your first love  
Blinded by every mistake  
I never learnt from  
I can't be somebody out here that they  
Never heard from  
Even when there's somethin' better  
Know I curv'd 'em  
I'm sayin' this is it for me  
My brain gettin' sick of me  
Well, cool, that ain't shit to me  
For real  
I can't put in words  
That nothin' burn  
Like your first love  
Blinded by every mistake (Yeah)  
I never learnt

No peers  
Came and went, there was no tears

Different gen' ain't got shit in common  
Miss the point when I'm riffin' on 'em  
Cherry-Evans, I chip it on 'em  
I put it down then I'm dippin' on 'em  
Since '04 still tippin' on 'em  
Like Mike Jones, Swishahouse  
Phone numbers ain't given out  
Dreamt of things and I lived 'em out  
Who knows if I'm missin' out?  
It's too late to go bitch about  
This what I do, it's a given now  
Tryna stay in love is the mission now  
Don't need nobody's permission now  
Reason that they all listen out  
Just moved Mum overseas  
Since my youth, nothin' was free  
And the worst cost of all's time  
Can't buy that shoppin' online  
I see things here in the family home  
Make my heart stop on a dime  
Know my brother died in that room  
Room next door, wrote my first rhyme  
Brought my first girl, scored the first time  
Even when it's awkward, it's fine  
Might rub some people the wrong way  
Can't let 'em stop you from tryin'  
Passport in my left hand  
Can't ever stop me from flyin'  
Don't text me with no bullshit  
I ain't ever fucken replyin'  
Stonex boy before I was signed  
If I said I saw this, I'm lyin'  
Million streams ain't in the cards  
When all your cards get declined  
Self-doubt get you wonderin'  
Are these people deaf? Are they blind?  
Or maybe, just maybe  
I'm really one-of-a-kind  
I hear people sayin' it's time  
Know that I got somethin' in mind  
Put quote marks around that  
Like it's stuff that Virgil designed  
Love hearts on these apps  
When there's fans learnin' my lines  
Same feels when a song dropped  
And I first heard it on Mai  
I'll get verses off till I die  
I've been thinkin' back to the past  
Pap to Devonport drives  
Sunday afternoon starts  
Mt Albert, Botany Downs  
Used to roll from all around town  
Wrote almost all of my debut  
When my bedroom was a lounge  
Guess I don't need nothin' flash  
It's all about the heart and the sound  
Spectating's cool but it hits diff'  
When your boot mark's on the ground  
When you really out on the pitch  
Must feel like what I found

Hard to-hard to put in words  
How it feel 'cause nothin' burn

Like your first love  
Blinded by every mistake  
I never learnt from  
I can't be somebody out here that they  
Never heard from  
Even when there's somethin' better  
Know I curved 'em  
I'm sayin' this is it for me  
My brain gettin' sick of me  
Well, cool, that ain't shit to me  
For real  
I-I can't put in words  
That nothin' burn  
Like your first love  
Blinded by every mistake  
I never learnt
