

# Runnin'

David Dallas

I got the new world in my view  
On my journey I pursue  
I said I'm running, running for the city  
I got the new world in my view  
I got the new world in my view  
On my journey I pursue  
Lord said I'm running, running for the city  
I got the new world in my view

They ain't got no muscle, no hustle  
No backbone, I stand alone  
Not tripping, just saying, I'm different  
Ain't hanging on the coattails of the next man  
Passport in my left hand, thinking that you are next  
Heck, hope you ain't holding your breath, man  
'Cause I'm out here, I'm hungry, I don't play around, trust me  
Ain't hexed my drive since my honda civic got rusty  
And my girl said she loved me, it's funny  
Thinking back, study hard for that 9 to 5  
Like I thought that I'd be good with that  
I was dreaming, still dreaming, spoiled it on me like Willie Beanie  
Sip it for me like cappuccino, we stuck around in tuxedos  
With my peoples, we growing up 'stead of seeing others slowing up  
Tint squad, we thought we know every time that we showing up

Get it while I'm living  
All I ever hear is the clock tick, tick, ticking  
So I'm 'bout my business  
And I'm running, I'm running  
I'm running with them, yeah  
They don't wanna give it up  
We don't make them ask it  
Get it while I'm living  
All I ever hear is the clock tick, tick, ticking  
So I'm 'bout my business  
And I'm running, I'm running  
I'm running with them, yeah  
They don't wanna give it up  
We don't make them ask it

Beats don't get no greater, feel like I'm on fire  
Feel like I'm John Storm, feel like I'm volatile  
Explosive, get close enough to notice  
Your girl act out a character when she see me approaching  
Aint pouching I'm just saying it's nothing  
You punching above your weight, I'm something  
She ain't seen no substitute in that A team  
That's BA, barracks, that BS, that whackness  
Get no play in my axis, make 'em jump like AJ Hackett  
Guarantee you in these boots they couldn't walk one mile  
I really need to go and hang it up like a drunk dial  
So behind the times they should probably rock till sun down  
Shattering their dreams, I could make big pun smile  
Music from the soul, don't need them to help me  
If they fiending for the flash, they should take another selfie  
Said I'm running, I'm running like Mo Farah so deep  
The whole world could go against me, it don't matter, man

Get it while I'm living  
All I ever hear is the clock tick, tick, ticking  
So I'm 'bout my business  
And I'm running, I'm running  
I'm running with them, yeah  
They don't wanna give it up  
We don't make them ask it  
Get it while I'm living  
All I ever hear is the clock tick, tick, ticking  
So I'm 'bout my business  
And I'm running, I'm running  
I'm running with them, yeah  
They don't wanna give it up  
We don't make them ask it

The chase  
Won't wait another day  
All is falling into place  
We ain't got much to lose  
I wanna taste  
Won't wait another day  
All is falling into place  
We ain't got much to lose

Get it while I'm living  
All I ever hear is the clock tick, tick, ticking  
So I'm 'bout my business  
And I'm running, I'm running  
I'm running with them, yeah  
They don't wanna give it up  
We don't make them ask it  
Get it while I'm living  
All I ever hear is the clock tick, tick, ticking  
So I'm 'bout my business  
And I'm running, I'm running  
I'm running with them, yeah  
They don't wanna give it up  
We don't make them ask it
