Clarity

David Dunn

I am looking for signs, searching for directions
I've been trying to drive from the passenger's side for ages

Waiting to find the answers to the questions
Wishing that I could know what You were thinking
I just wanna know why it can't be easy.

So what do I do when I don't know what to do

Oh my god can you show me who to be
Cause my life it gets confusing
I feel lost in the dark in search of your heart
Without you there is nothing to see
Oh my God can you be my clarity, My clarity

I wanna hear your voice drowning out commotion
If I looked in your eyes would I see that the skies are clearin
g.

So what do I do when I don't know what to do

Oh my god can you show me who to be
Cause my life it gets confusing
I feel lost in the dark in search of your heart
Without you there is nothing to see
Oh my God can you be my clarity, My clarity

When what to do becomes a mystery, be my clarity
When confusion is the death of me, oh be my clarity
